Year 2 Termly Newsletter: Autumn 2019

BEULAH INFANT &
NURSERY SCHOOL

Welcome to Year 2. We hope that you have had a fantastic summer and look forward to having a wonderful year working together. This newsletter will help to keep you informed about what your children will be learning this term. If we need to share information with you, we will use the 'text to parents' service, the notice boards outside of the classrooms and the Pegasus website which we suggest you check regularly for up-to-date information.

English: During the autumn term, we will be working hard in English to develop the children's reading, writing and speaking and listening. In order to inspire the children's story writing and encourage a love for reading we will be working with a number of fictional texts such as "The Lonely Beast" and "George's Marvellous Medicine." We will also be using a wide range of non-fiction books from the classroom and our new school library to research and fact find, particularly for this term's history topic which is '[Looking at London](#)'. The children will be writing exciting diaries from the view of an eye witness to the Great Fire of London. Every week, the children will be learning about different aspects of spelling, grammar and punctuation and will be encouraged to use their learning to improve their writing skills.

Maths: In our maths learning this term, the children will be focusing on securing their knowledge of place value. For example, understanding that the number 23 is made up of 2 digits that tell us how many tens and how many ones there are in the number and that $23 = 20 + 3$. They will also be looking at the different ways that we can add and subtract numbers. Please help your child at home with as much practical maths as possible; remembering that it is important that they can explain the method that they have used to solve a calculation. Our work on shape and measure will include visualising and describing 2D and 3D shapes (hexagons, pentagons, cuboid, pyramids, cones), telling the time to the nearest 15 minute intervals and collecting information that will be recorded in tally charts and block graphs.

Science: Our science topic this term is "Living things and their habitats" where we will be learning that most living things live in habitats to which they are suited. We will also learn to describe how different habitats provide for the basic needs of different kinds of animals and plants.

Thematic: This term, our topic is '[Looking at London](#)'. This topic will cover all of our work in art, design and technology, history and geography. In history, we will be learning about 'The Great Fire of London', when and why it happened and how it affected London. In geography, the children will look at where London is, learn about some of its significant landmarks and why it is an important city. In art, we will be making pictures of the fire and a silhouette of the London skyline. As part of our design and technology topic, we will be designing and making our own biscuit boxes.

Places of interest, linked to our theme, that you could visit with your child are The Museum of London and St. Paul's Cathedral.

Trips and events: This term we will be taking a trip to Morden Hall Park to take part in a 'Comparing Habitats' session where children will get the chance to take part in pond dipping as well as hunting for mini-beasts in the woodlands. This gives children a chance for some hands-on experience that will help bring our science topic 'Living Things and Their Habitats' to life.

What you can do to help: The most important way you can support your child is by reading with them EVERY DAY. Your child will have the opportunity to change their reading book in their book bag on a daily basis. It is essential that you listen to them read aloud and also that you read to them so they are exposed to a range of different texts. Please write in your child's reading diary on a daily basis to keep us informed of their reading at home. There will be a chance for you to meet with your child's teacher this half term to talk through their next steps for learning. The meetings will be taking place on **Tuesday 8th and Wednesday 9th October from 3:30 to 6:30pm**. You will be able to sign up for a time slot nearer to the time. We also look forward to seeing you for our year 2 curriculum meeting **Wednesday 2nd October at 9:15** where we will share information about the SATs (Standard Assessment Tests) that the children will be taking next May.

If you have any general concerns or questions in the meantime, please ask!

Miss T Cashmiri—Year 2 Team Leader
