

Understand the shape of the  
boxes – it will help you.

**Ascenders (they are tall letters)**

b d h k l t

**Descenders (they continue below the line)**

f g p q y j

← Where a letter has a dot on the top the box is curved.

**'i' has 2 shapes – one when it's on its own and one when it's in a word:**

I i

← Where a letter has a dot on the top the box is curved.

Other letters of the alphabet fit in this size of box:

a c e m n o r s u v

w x z

Capital letters have a bigger box (you need them for things like names)

S p D B K L

Where the boxes change colour on the adult list this shows a different sound in the word string – e.g. 'ack' becomes 'eck' – 'back' becomes 'beck'
