

the steam train was invented their is a pool a playground with a sand pit and 2 dinosaur statues

What Do I Know about The Crystal Palace

Victorian Inventions

their was lots of people we victorians invented bicycles, computers, radio, telephones, light bulbs, train tracks, trains, cameras, sewing machine, X-rays, Christmas cards, rubber tires, cars, electricity.

the dinosaurs were built after the fire and cost a lot of money

there is also a massive skate park a big lake and a river their picnics here their was to be a big crystal palace

they put on a show to show how good they are their is a bridge lots and lots of trees so many dinosaurs their are parties their and lots and lots of people and children.

the crystal palace was built down and it snowed their one and lots of people go their it looks like a thermal rock crystal

it opened on 1 May 1851 they made to get their crystal palace train only Hayde park
