

WALT solve problems involving money

To solve these problems, make sure you have the Pegasus Pier Prices.

You have 80p to spend at the Pegasus Pier.
What different combinations of items could you buy/do?

You have £1 to spend at the Pegasus Pier.
What different combinations of items could you buy/do?

Remember £1 is
the same as 100p

You can **only** choose 1 item from **each** section at the Pegasus Pier.
Which 4 items will you choose?
Add them up to see how much it would cost you.
Which coins could you use to pay?

Mega Challenge

You have £5 to spend at the Pegasus Pier.
How close can you get to spending exactly £5?
You cannot buy/do the same thing twice.
Is there more than one way you can spend exactly £5?
