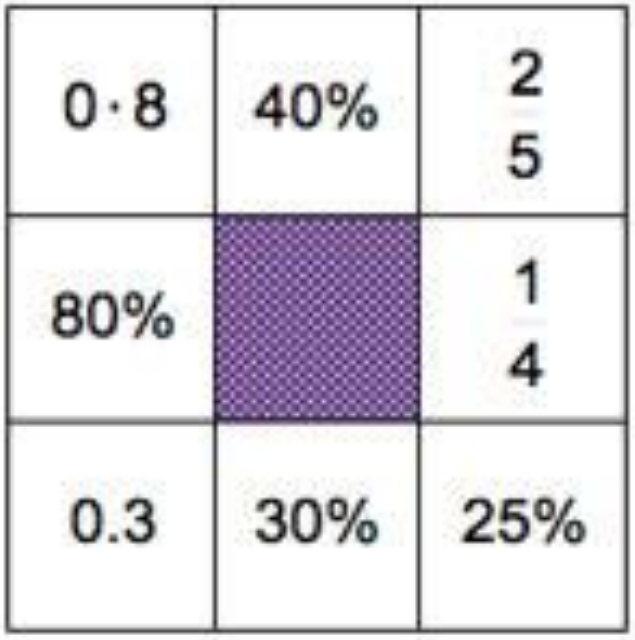
Fraction, decimal and percentage domino doughnuts!

Instructions: print out the domino sheet and cut the sixteen dominoes up. If you don't have a printer, you will need to copy the dominoes onto paper and cut them out.

The problem: You need to join the dominoes so that you end up with a set of four dominoes which join together to form a "doughnut" where touching ends have equal value. For example:



Have a quick look so that you get the idea – try not to copy it!

How quickly can you assemble the four doughnuts?

Good luck!
