

## Flag Challenge!

Do something extraordinary this week and see how many flags you are able to create with any Lego that you may have at home. If you don't have any Lego, try painting, drawing or making collage flags?

You could design a flag quiz – as a PowerPoint slide show or using printed images - and test your friends and family.

How many flags and capital cities do you know? How many can you learn before the end of the week? Use the attached Twinkl poster to help you.

Don't forget to send your flag challenge creations to your home learning email address.
