

Dear Diary,

yesterday I found a boat on the wet soggy sand and that was good news because I was planning to leave this horrible island and it is flooding. I looked around to see where I can put Lyca (the name of the boat) and to see if anyone was there because someone can take it just like that! With all my strength I dragged Lyca everywhere until I found a derelict and destroyed shop. Next to it I saw a garage so I put Lyca inside it. But little did I know me and Lyca's trail was right behind us. I skipped with joy all the way home and pack my stuff I was excited.

After I packed my stuff I went outside and in the distance I saw a gang running towards me and I saw someone I knew it was Natasha because she always wears sunglasses. (Natasha is my friend and use to work in the Allotment next door to me) I ran away with

my stuff but I heard Natacha say "Zoe, Zoe come back" but I did not listen I kept running I think they saw me and Liza's trail. I was shocked and confused why Natacha is chasing me and why she was in that gang. All of a sudden I tripped on a palm tree root and my head had a bruise I used all my strength and got on the boat.

I got on the sea and I said "I know I am an amateur but I am determined to go and find my parents". I used all my strength and rowed the boat.
