

Dear Mother,

You are the best mum in the world!

I love when you cook your delicious, hot pasta and you always help me on my homework when im stuck.

I love when we go shopping because you always buy stuff that will help me in ~~of~~ the future. I remember when I fell down the stairs and you saved me. I always love playing games with you and beating you at it.

One of my favourite memories were when ~~to~~ in quarantine, we spent the day doing school work. Also, when we had ~~christmas~~ christmas dinner and we opened our cracker together.

My all-time favourite memory was when we had a picnic in the garden and we ate everything! Then we went to the park and played on the swings and you nearly fell off! We also went on the exercise bars and we were so tired we nearly fainted!

I also remember in Spain we took a bunch of pictures together, taking turns holding the phone.

I also love ~~watch~~ watching the tv together because you always want to watch what I want to, even when you say it's boring. ~~hope~~ ~~never~~ ~~hope~~ you never die. I love you mum and I ~~never~~ ~~hope~~ you die.

Love Javia

Fantastic writing with lots of detail

Antonia

Don't treat people different even though they don't look like you.

Even though their ~~name~~ name is different don't judge them by their name for jobs do it by the paperwork.

We shouldn't bully people just because they are different.

Care for each other. ~~not~~

~~Help~~ Help people who need it more than you.

Don't judge people by how they look.

Don't Judge People By How They Look
