

My dear husband, it's very rare for women like me to be bewitched by such ambitious, strong men like you. You are Thane of Cawdor or and the best that shall ever live. You deserve so much better than this, you deserve Royalty and I know exactly how to make it happen. All you need to do is trust me, Soon all the men and women of Scotland will see you the way I do, maybe you will be loved and Respected world wide. A man of the best gets the best, so by the tip of your finger house pets will be going up to get you what you need.

Don't you want to make the people you love proud? There are so many men heading for the throne, why can't that be you? You're a man, a lord, not a boy. Many people see you that way they see you as Thane of Cawdor but in my eyes I shall see you as King and I as the queen. This isn't wrong, trust me my dear, you're simply just taking back what you

deserve. Let the villagers hail mighty Macbeth, it's what was bound to happen from the start. It wouldn't be very many or long like to make such an opportunity like this to slip, many members from the family shall expect to be proud not shall be dissatisfied.

At this point, this is the only way that you can get to the throne. Face it, the next royals are young and will not live you. Duncan is nothing but a fool, first he made you risk your life for his people, and now he wants to stay here. It's like he relies on you for everything, he does it so much you shall take his place as king. Use your power the right way and make Scotland's legacy ride, as a king along with me your queen. Consider it,

Your soon to be wife, Lady Macbeth
