Les nombres - Numbers

1. Complete the number problems by writing the answers in French e.g. deux + trois = <u>cinq</u>

a. trois + quatre = _____   b.   dix - _____ = cinq

c. _____ + deux = neuf   d.   huit - _____ = deux

   e. quatre x _____ = huit

2. Rearrange the letters to spell out the numbers in French (1-10) and then translate them to English. E.g. xid = dix (ten)

   a. epts =   _____   b. uaetrq = _____

   c. fneu =   _____   d. strio = _____

3. In the box below are number 11-20 written in French. Use your knowledge of numbers to help you complete the gaps.

---

douze = <u>12</u>   quatorze = ____   dix-sept = ____   vingt = <u>20</u>

onze = ____   dix – huit = ____   treize= ____

quinze = ___   dix-neuf = ___   seize = ___

---

4. Now write the numbers in ascending order from 11-20 in French.

5. Check your answers using this link and learn how to pronounce the words. https://www.youtube.com/watch?v=all7Vrtq7zY

Why not play a game of 'hangman' or 'bingo' with your family using numbers in French!
