

Shakespeare

Early life

Shakespeare was born into quite a wealthy family in Stratford in 1564. On November 1583 he got married to a lady called Anne and one year later their first child (Susanna) was born. They obviously adored her and decided to have one more child. Unexpectedly, they found out they were having twins and in 1584 Judith and Hamlet were finally born.

His work

During the year 1590, the Bard produced his first play called "The Two Gentlemen of Verona". He soon after joined an acting company but left after a year to write one of his most famous plays "Romeo and Juliet". All together he has written a total of 38 plays!

Fun Facts

Unfortunately, William's son (Hamlet) died at the age of 11 supposedly from the bubonic plague. The writer married a woman 8 years older than him and when he died on his 52nd birthday he left her with a bed! Every year around the 23rd of April the streets of Stratford are filled with music and songs to celebrate William Shakespeare's death.

Ⓜ Excellent editing what a great final piece!
