WALT write a non-chronological report.

After the Stone Age some historians started to make metal tools during periods called the Bronze age and Iron Age.

## For food

Hunter gatherers who get their food by gathering plants or hunting animals. Stone Age people had a balanced diet so they kept healthy.

## Stone Age clothes

~~Warm clothes~~ The Stone Age people had warm clothes made from animal skin. Their shoes called Eglal boots were made from animal skin as well.

## Shelter

The Stone Age people lived in caves because they needed shelter. They lived in the cave entrance so they could have light. If they went to go in the cave if the fire was out then it would be pitch black.

## Stone Age tools

Stone age people used spears, bows and arrows and shovels. They used the shovel to dig the ground up the bow and arrow for killing animals. The spear is for hunting for animals.

## Fun Facts

Did you know that Stone Age people had needles because they needed to stitch their clothes up.

The picture is about Stone Age people hunting for food.
