

Varmint Liberation Campaign HQ, 1 Freedom Street, Varmintshire, V3R M1N

Dear Sir or Madam

This letter is about the Varmints this is to raise awareness and how to reflect on what the others did. These kind, soft and gentle creatures have protected our land for years. We are trying our best to stop the army of invaders. If then on they choose to carry on then they will be seized because they have no right to build on this piece of land.

I am against the others if we don't sort them out then there will be no place to home for the Varmints. The invasion has caused deliberate effects and all that is left is dark looming buildings.

It is very concerning, that this colourful land has been taken over by careless figures. How would you feel if this was your home?

Please support our service the Varmints are essential in our lives if we don't act immediately then our Varmint friends will become extinct.

Your help can save their lives and ours

Your sincerely  
Thera
