Dear Sir / Madam

I am writing to you because I need to inform you about what's going on with the varmint's who are gentle creature's who are scared to death and under threat. Their environment has been destroyed without our help the gentle creature's will soon be gone.

Some people believe that the whole invasion has made it hell for the varmint's. The sweet bright land is gone because of the horrible other creature's took away the land and now people can not hear themselves because of the noise going on.

The environment is horrible, there is no food for the varmint's but there is no water which they need and they are trembling in fear because the creature's are mean it start's ~~going~~ raining or should we say thunder people start getting scared.

You should be doing something about this how would you feel if this was your home?

You have to do something you can't just sit there and do nothing please help our dear friends they don't deserve this now. How would you feel this being your home? we need them to be safe I will not stand here and do nothing please help.

Yours sincerely

Leah
