

Walt: Researching using different using different sources of information

Dear /sir /madam /mp

I am writing to inform you about the varmints and the damage they are causing. They ~~are~~ need to be stopped soon because they will ruin our cities and everything. My name is Gary Woods and im a resident of peckham. Please do something quickly

Before the varmints came, it was peaceful, calm and you could relax. In the trees you could hear the birds singing song. Through the green grass, you could hear see the bees buzzing as they hovered slowly, across the neverending lands. It was like you were in an amazing dream

Now, everything is destroyed and demolished. All my family have died and we are all suffering! Do you want to let us all suffer? They are causing chaos and are making so much noise. It is like we are at war, it shouldn't be like this, it should go back to normal. There are too many of them, us villagers cant do anything about it. Please do something or we are all going to suffer

Yours Sincerely,

Gary Woods
