

Would You Rather?

Stage: 2 ★

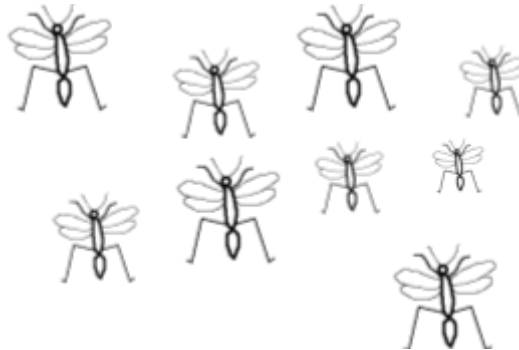

Would you rather.....

Have 10% of £5 or 75% of 80p?

Be given 60% of 2 pizzas or 26% of 5 pizzas?

Be bitten by 15% of 120 mosquitoes or 8% of 250 mosquitoes?

Skip using a rope which is 54% of 105cm long, or 88% of 2.75m long?

Sit in a traffic jam for 33% of 2 hours or 44% of 1hr 40mins?

Make sure you explain your reasons clearly. Perhaps you'd like to make up some of your own questions like these and send them to us

It's hard to give hints to this problem but here are a few things to think about:

- Try estimating which you think will be the answer first
- Linking percentages to fractions often helps
