

MOON DAY By Lara Belkat

On Wednesday, it was moon day for year one and it was fun. In the morning I decorated a biscuit with little white and silver beads. Next I ate it and it was yummy. Afterwards I went to meet an alien and it was funny. A little white lady she told us the two babies. When I got back to the classroom I played with squishy shaving foam. Finally I started making a rocket with my best friend forever Emilia. It was the best day ever.

This is the moon.

Use the star words first and then the other words daily	A capital letters	finger spaces	use / for correct word endings	big shiny soft adjective	full stops

Moon Day Recount

by William

I liked moon day because

first I made a sandwich with

jam and it was yummy.

Next I played with the sand.

Then I made my biscuit.

Afterwards I played

with moon balls.

last of all I met an

alien.

MOON day

On Wednesday Blue class
Went to the moon and had a
fantastic time.

First I Played With the
sand and it felt gooey.

Next I Played With the
orbz and they felt squishy.

After that I made my biscuits.

First I got some icing and I
spread it over my biscuit next I

put some sprinkles on and then
I... ATE IT! it was yummy.

After some time we left the class
we went into the moon room.

We saw our head teacher dress
up as an alien. we asked her

lots of questions such as how old
she was it turned out that her babies

were older than her she was 4
and her babies were 100 the

babies names were bbbib and rrrr.

A little while later we came back
to class and we had play time.

After some time we came back
into class and I played with some

shaving foam.

My favourite part was eating the
biscuits because it was yummy.

by Beatrix Beck

First I made the jam sandwiches.

After I touched the orbz I
touch the sand.

Finally I met an alien.
